Halogen Heat Lamp

46670 - 46674

46675 - 46678

46679 - 46683

46684 - 46687

Reptile One Halogen Heat Lamps are designed to last longer and use less electricity, resulting in efficient and cost effective reptile heating.

Reptile One Halogen Heat Lamps are designed to last up to 2,000* hours and are more energy efficient than traditional incandescent bulbs. (* Based on constant and stable electricity supply.)

The range includes: Daylight, Neodymium, Moonlight and Infrared lamps, with a range of wattages from 28W to 100W available in certain models. With such a comprehensive new range, you will be sure to find the right halogen heat lamp for your reptiles.

Suitable for: All Reptiles.

Features & Benefits:

- Daylight Halogen**
 The Daylight Halogen is used to provide basking light and heating during daylight hours for your diurnal reptiles. The UVA rays enhances and stimulates psychological wellbeing in reptiles and is an essential component of maintaining healthy reptiles.
- Neodymium Halogen**
 The neodymium mineral which is infused into the glass of this bulb can enhance the colours of your animals. The UVA rays enhances and stimulates psychological well being in reptiles and is an essential component of maintaining healthy reptiles.
- High efficiency, next generation halogen broad spectrum lighting technology for your reptile collection.
- May be used in conjunction with other UVB light sources such as T8 tubes or compact UVB bulbs.
- Halogen lamps are designed to last up to 2,000* hours!
 (* Based on constant and stable electricity supply.)
- Moonlight Halogen**
 The Moonlight Halogen is a low light heat source providing a purple hue that replicates natural moonlight conditions, and functions as a heat source for nocturnal reptiles.
- Infrared Halogen**
 The Infrared Halogen provides soft light output, and creates optimum heat conditions. Ideal choice of lighting in situations such as rehabilitation and brooding where bright lights can stress the animal.
- Save on your power bills! Halogen lamps are a more efficient and cost effective lighting option. Please see the conversion chart to see how incandescent lighting compares!

Product Information Sheet

Reptile One®

Notes, Hints & Tips:

- Do not touch the halogen lamp while it is switched on.
- Do not touch the glass lamp with bare hands. Always use a tissue or cloth to prevent oils from your skin being transferred to the glass bulb, as this may weaken the glass.
- Allow the lamp to cool before attempting to remove the halogen lamp from the socket.
- When replacing the halogen lamp, ensure the unit is switched off.
- Ensure your animal cannot come in contact with the halogen lamp.

Warning and Disclaimers

- 30 Day Limited Guarantee. Proof of purchase must be produced together with the faulty lamp in order to make a warranty claim. Excludes glass breakage, damage caused by power surges, electrical storms or accidents.
- It is the user's responsibility to ensure their appliances are adequately protected from power surges and power spikes by the use of a high quality surge protector available through most electrical retailers and hardware stores. Damage caused by power surges and/or electrical storms is not covered under the 30 Day Limited Guarantee.
